Spring 2018
School Census Guidance

Pupil Referral Units
If you have any queries on using your MIS (SIMS) system to complete your Census return, please contact the Capita helpdesk on 0844 8922406

(Calls to 0844/0845/0870 numbers will cost three pence per minute, plus your phone company’s access charge.)

If you have any queries relating to the DfE Guidance, please contact the Business Intelligence and Performance Improvement Team

on 01604 366190

or email

education@northamptonshire.gov.uk

We are always interested to hear your views on our documentation to ensure we continue to provide high quality guidance and would welcome your feedback.

Please reply to: support@dotict.co.uk

What’s new in this census/SIMS

New data items (First collected in Autumn 2017)

Disability Access Fund
Tools | Statutory Return Tools | Update Early Years

This new option provides the ability to record whether three- and four-year-old pupils (not in Reception) are in receipt of the Disability Access Fund.

Extended Funded Hours
Tools | Statutory Return Tools | Update Early Years

This new option provides the ability to record the number of Extended Funded Hours that are in addition to the initial funded hours that the child receives. This is available for three and four year olds (not in Reception) with working parents.

30 Hour Code
Tools | Statutory Return Tools | Update Early Years

This new option provides the ability to record the 11 digit 30 Hour Code for three and four-year-old pupils. This code confirms the eligibility of working parents to access the additional 15 hours of extended childcare.

Establishment Unique Reference Number

Focus | School | School Details
The school’s Unique Reference Number (URN) is collected for the first time in the Autumn return. This data will be collected from Edubase.

Hours and Minutes Format

Tools | Statutory Return Tools | Update Early Years

Values for Funded Hours, Hours at Setting and Extended Funded Hours can now be entered in hours and minutes using two decimal places, e.g. 1 hour 15 minutes should be entered as 1.25 and 3 hours 40 minutes should be entered as 3.67.

2-year old basis for funding (Spring return only)
This new data item records the basis on which 2 year olds have been funded whilst taking up a place in the school. This data item is not required for 3 and 4-year-olds. 2-year-old children may meet more than one criterion in the table shown below and each relevant criterion is returned in the census.

<table>

<td>ECO</td>
<td>Economic criteria</td>
</tr>
<tr>
<td>HSD</td>
<td>High-level SEN or disability</td>
</tr>
<tr>
<td>LAA</td>
<td>Looked after or adopted from care</td>
</tr>
</tbody>
</table>
Amended data items (From Spring 2018)

Proficiency in English (Spring return only)

This is collected only where the pupil’s language code indicates that the pupil’s first language is not English. This is now only to be collected in the spring census return.

Copying a Return File

Routines | Statutory Returns | School Census - Copy
The message displayed when the Copy button is clicked has been modified for clarity. The message now reads:

Any values for Attendance, Hours for Early Years, Adopted from Care and Top-up Funding **WILL NOT BE COPIED** but will be populated from the current values held in the database.

Create & Validate must be run in order to generate a new census file.

Do you want to make a copy of the return "<return name>"?

Deadlines

**THE DEADLINE FOR AUTUMN CENSUS RETURNS TO NORTHAMPTONSHIRE COUNTY COUNCIL VIA AVCO IS Friday 19th January 2018.**
Introduction

Every school is expected to complete three Census Returns in the academic year 2017/2018.
The remaining Census Dates for 2017/2018 are:

- (Spring) third Thursday in January (18th January 2018)
- (Summer) third Thursday in May (17th May 2018)

The table below gives a summary of which data areas will be collected in each remaining census.

<table>
<thead>
<tr>
<th>Module</th>

A more detailed list of data to be collected is provided on page 8.

This document is designed to help you through the processes required to complete your Spring Census 2018 return using SIMS. The notes are designed to be used in conjunction with the 2017/2018 DfE Guidance notes which can be downloaded from:

**Important note for Academies**

Guidance on the data returns due from academies can be accessed via the following DfE website link:

**ALL SCHOOLS INCLUDING ACADEMIES**

*Academies should upload their Census file directly onto the Secure Access website but it is requested that AnyComms is then run so that the Census files can also be sent to the LA.*

*REMEMBER TO SEND A COPY OF YOUR CENSUS FILE TO NORTHAMPTONSHIRE COUNTY COUNCIL VIA AnyComms – see page 59. The reasons for this request are outlined in the Data Exchange Agreement signed by each Academy.*

SIMS Version

In order to run the return, you must have the SIMS 2017 Autumn Release (7.178) or later installed.

To check the version of SIMS installed, open SIMS then select Help | About SIMS.net. A dialog similar to the following graphic is displayed.

The version should read 7.178 or later.

Importing Revised Filesets for Validation and Reports

Applicable to the Personnel Officer, Returns Manager and System Manager only

The Validation Errors Summary and the Summary report are derived from files supplied by the Statutory Body. In addition, SIMS provides detailed reports to enable the checking of data used to generate the return. These report files are initially installed automatically during the SIMS upgrade.

Occasionally, additions or corrections are made to these files, after a SIMS release, which are required for the forthcoming return. The Import Fileset functionality is provided to enable these files to be imported into SIMS between the SIMS releases.

To use the Import Fileset functionality you must be a member of one of the following user groups in System Manager:

Personnel Officer
Returns Manager
System Manager.

**IMPORTANT NOTE:** The report files are not always updated between releases. Therefore, it is not always necessary to use the Import Fileset routine. A news feed will be posted on www.capitaess.co.uk website if updated files are available for import.
If revised files are supplied, the fileset will be available as a .ZIP file, which should be downloaded, unzipped, then imported into the SIMS Document Management Server (DMS) via Tools | Setups | Import Fileset. Ensure that the DMS is configured correctly before attempting to import the files.

**Tip:** To check which version of the fileset is currently in use, select Routines | Statutory Returns | School Census to display the Census Return browser. The Validation Fileset ID is displayed in the header of the browser.

**Importing the Revised Filesets**

1. If revised filesets are supplied, download the required ZIP file from www.capitaess.co.uk website to a folder of your choice.
2. Unzip the ZIP file to a folder of your choice.
3. In SIMS, select Tools | Setups | Import Fileset to display the Import Fileset page.

4. Click the Browse button to display the Open dialog.

**NOTE:** The following graphics show example data only.

5. Navigate to the location of the downloaded fileset. The file name is made up of the following data fields: <Fileset Number>-<Census Name>-<Term and Year>_Fileset.mfs.
6. Highlight the file then click the Open button. Alternatively, double-click the required .MFS file to return to the Import Fileset page.
**IMPORTANT NOTE:** If more than one MFS file is displayed in the Open dialog, care should be taken to select the correct file.

Details of the selected fileset are displayed, including the version **Number** of the fileset, the **Release Date** and the fileset description (**Title**).

7. Click the **Import Fileset** button to import the fileset. When the import process is finished, **Import successful** is displayed at the bottom of the **Fileset** panel.

8. Click the **OK** button, close SIMS then re-open to ensure that the new file takes effect.

9. Run the return in the usual way
Checking School Level Information

Checking Establishment Details

The following establishment details are required for the School Census Spring 2018 Return and therefore need to be checked to ensure that they are correctly recorded in SIMS:

- School Type
- School Governance
- Intake Type.

The following read-only items are also collected for the School Census Spring 2018 Return. Please contact your Local Support Unit if the information displayed is incorrect.

- School Name
- LA number
- Establishment Number
- School Phase
- Curriculum Years (highest and lowest national curriculum year group).

The panel below is taken from the Census screen showing the information collected in each census return.

![Census Screen Example](image-url)
New data item from Autumn 2017
The school’s Unique Reference Number is being collected. Whilst this is not collected from SIMS, but from Edubase which schools should check and update via the Secure Access website, it is worthwhile adding the number to the SIMS school details panel as outlined below.

The school’s URN can be found by going to the government’s ‘Get Information about Schools’ website:
https://get-information-schools.service.gov.uk/

On accessing the site, click the Name or Reference Number radio button, enter your DfE number and click Search.
A screen will open showing many details about the school. The URN is at the top of the screen just under the name of the school.

To check/amend the school information is correct:
1. Select Focus | School | School Details to display the School Details page.
2. Check that the details displayed in the 1 Establishment panel are correct.
3. Ensure that the School Type, School Governance and Intake Type are displayed correctly. Select as required from the drop-down lists.
4. Add or amend the school’s URN as necessary.
5. If you have edited the Establishment panel, click the Save button.

Checking Telephone and Email Information
The following school contact details are collected for the census return and therefore need to be checked to ensure that they are up-to-date and correctly recorded in SIMS:

- School Email Address
- School Telephone Number (including STD code)

1. Select Focus | School | School Details to display the School Details page.
2. Click the Contact Details hyperlink to display the Contact Details panel.
3. Ensure that a **Telephone** number has been recorded (including the STD code).
4. Ensure that the school’s official communications **Email** address has been recorded correctly (it must include the @ character together with a minimum of one full stop).
5. Click on the **save** button if you have made any amendments.

The email address must be the account used on a regular basis. It must also be accessible to the Head Teacher as it is used for DfE correspondence.

**NOTE**: Although the school address is not included in the school census from panel 2 on this screen. It is still good practice to ensure that these details are correct and amend if necessary.

**Information for Academies:**

Academies should ensure that the following information is recorded, if applicable:

- The **School Type** and **School Governance**. Select **Academies** from the drop-down lists.
- The school’s **Previous Name** and **Date Name Changed**.
- The **Previous Estab Number** and **Earliest Date of Admission**.
- The **Previous URN Number** and **Date Number Changed** (if applicable).

The establishment number information is used by School Census. If the DfE number has changed for sponsor-led Academies, the **Earliest date of admission** is interpreted as the date the academy opened and historical information from before this date is not collected.

**Updating Cultural Information**

Proficiency in English, Nationality, Country of birth, Ethnicity and First language are all collected in this return. See pages 62 to 64 for extra information from the DfE.

These data items can all be found in the **Ethnic/Cultural Panel 8** on a student’s record or in the **Bulk Update** routine.
Proficiency in English was first collected in the Autumn 2016 census return. This is collected only where the pupil’s language code indicates that the pupil’s first language is something other than English and for children of Reception age and above.

Teachers assess these pupils according to the impact that their Proficiency in English has on their ability to engage with full class activities (and the corresponding level of support that the pupil requires). A date of assessment and level is required to be entered, see page 62 for further information on the levels.

The levels available are:

A – New to English
B – Early acquisition
C – Developing competence
D – Competent
E – Fluent
N – Not yet assessed.

A First Language other than English should be recorded where a student was exposed to the language during early development and continues to be exposed to this language at home or in the community.

If the child was exposed to more than one language (which may include English) during early development, the language other than English should be recorded, irrespective of the student’s proficiency in English.

Using the Quick Search facility

1. Type ~F in the Quick Search field at the top of the SIMS Home Page, and then press the Enter key or click the Quick Search icon.

A list of people recorded in SIMS who match the search criteria of missing First Language.

Those students with a missing First Language are displayed.

Editing the students record

1. Select Focus | Student | Student Details to display the Find Student browser.
2. Search for and then double-click the required student to display the Student Details page.
3. Click the **Ethnic/Cultural** hyperlink to display the **Ethnic/Cultural** panel.

4. Select the student's **First Language** from the drop-down list.

5. Click the **Save** button.

6. To add a **Country of Birth**, click the browser icon to the right of Country of Birth. Choose the required Country and click **OK**.

7. To add a **Nationality**, click **New** to the right of the Nationality and Passport details panel. Click on the **browser icon** to the right of the Nation.

8. Choose the required Nationality and click **OK**. For pupils with 'Multiple Nationalities or Dual Nationality' more than one nationality can be recorded.

For any student whose **First language** is not English, a level is required for their **Proficiency in English**.

9. To add a Proficiency in English, click **New**.
10. Amend the **Date of Assessment**, if necessary and choose a **Level of Proficiency**. Then click **OK**.

11. Some data in this panel will only have been applied from today’s date. In particular Ethnicity and First Language. However, if the student started prior to today, then click the **History** button.

**Changing the History**

This screen shows you at what point data was entered onto the system and the date the student was admitted. All the orange bars need to completely fill the white space (i.e. the date of admission).

1. **Double click** on the orange bar to be changed. You may need to scroll down the next screen to see the orange bar.
2. Again **double click** on the orange bar to be changed.

3. Change the **Start Date** to the **Date of Admission**.

4. Click **OK**

5. The line should now completely fill the white area. Click **OK**
6. Repeat this process for any other bars that do not completely fill the white area. Click **Save**.
Update Hours for Early Years

**Hours at Setting** and **Funded Hours** are collected from all schools that have pupils aged 2, 3 and 4 on-roll on census day. The hours collected in this return are for the week in which the census day falls.

**Hours at Setting** reflects the number of hours that the child attends the setting **during census week**.

**Funded Hours** signifies the level of free entitlement of education attracted by the child in that setting. This data is used to determine the Dedicated Schools Grant allocation, which the DfE uses to fund Local Authorities for the provision of education.

All schools (with the exception of non-maintained Special schools) are required to submit the Funded Hours as a separate data item, while still providing Hours at Setting. Funded hours will only be required for all pupils aged 2, 3 and 4 in ‘nursery schools’ and for pupils aged 2, 3 and 4 in year group E1, E2, N1, N2 and any pupils aged 3 and under in Reception. These attract a maximum free entitlement of 15 hours a week.

Data is collected about pupils whose date of birth falls in the date range **01/09/2012 to 31/08/2015 inclusive**.

<table>
<thead>
<tr>
<th>Census</th>
<th>Phase &amp; year group</th>

<td>01/09/2012 to 31/08/2013 inclusive</td>
<td>15 hours for pupils where 30-hour code is present or 25 hours for pupils where 30-hour code is NOT present</td>
</tr>
</tbody>
</table>

**Disability**

**Access Fund**

The Disability Access Fund is payable as a lump sum once a year and awarded to three and four year old pupils who meet the following criteria:

They are in receipt of child Disability Living Allowance (DLA) and they access their entitlement to free early learning and childcare, e.g. funded hours.

Disability Access Fund data is collected in this return for pupils who are in receipt of the fund on census day.
<table>

<td>01/09/2012 to 31/08/2013 inclusive</td>
<td></td>
</tr>
</tbody>
</table>

**Extended Funded Hours and 30 Hour Code**

**Extended Funded Hours** are the number of hours that are in addition to the initial 15 funded hours that a child receives and is applicable to three and four year old pupils only.

Extended Funded hours can double the original 15 hours of free child care to 30 hours a week, provided that the following criteria are met:

Both parents must be working (or the sole parent is working in a lone parent family) and live in England.

Each parent earns, on average, a weekly minimum equivalent to 16 hours at National Minimum Wage or National Living Wage.

Each parent must have an annual income of less than the specified amount.

Parents who meet the extended funded hours criteria must obtain a code from the Tax Office (HM Revenue & Customs), then provide it to the school, together with other details, to confirm their eligibility for extended child care hours.

The 11 digit **30 Hour Code** and the number of extended funded hours are collected in this return for the week in which the census day falls.

<table>
<thead>
<tr>
<th>Census</th>

<td></td>
</tr>
</tbody>
</table>
Extended Funded Hours information provided by the DfE can be found on their website https://www.gov.uk/government/publications/30-hours-free-childcare-la-and-early-years-provider-guide.

NOTE: Pupils aged 4 at the start of the academic year in reception and above are funded as full time equivalent pupils via the schools block of the dedicated schools grant and therefore funded hours are not relevant for those pupils as they are not funded via the free entitlement.

For dual registered pupils, record the funded hours spent in education at each school. The main registration records funded hours in education at the main registration, with the subsidiary recording funded hours in education at the subsidiary registration.

1. Select Tools | Statutory Return Tools | Update Hours for Early Years
   If available, the Hours data is brought forward from the previous census.

2. Click OK

This data should be reviewed and updated, if required.

3. Check all children have the correct Hours at Setting and Funded hours.

4. Amend as necessary

NOTE: If your school does not use the Define Early Years Attendance Patterns functionality, the data can be entered in the grid manually.

NOTE: Although SIMS allows schools to enter Disability Access Fund, 30 Hour Code and Extended Funded Hours for pupils aged 2 at 31/08/2017, this information is not included in the return file because it is not required by the DfE.
5. Click the **Save** button.

**IMPORTANT NOTE: Tools | Statutory Return Tools | Update Early Years**

Values for Funded Hours, Hours at Setting and Extended Funded Hours can now be entered in hours and minutes using two decimal places, e.g. 1 hour 15 minutes should be entered as 1.25 and 3 hours 40 minutes should be entered as 3.67.

If most of the pupils are receiving the same number of hours, the following method can be used to quickly populate the column using the grid above:

1. Select the required year group from the **Year Taught In** drop-down list. The selected pupils only are displayed in the **Pupils** panel.

2. **Right-click** in the **Pupils** panel then choose **Select All** from the drop-down list.

3. Click in one of the highlighted cells of the column you wish to populate, i.e. **Hours at Setting** (or **Funded Hours**), then enter the number of hours that is applicable to the majority of pupils.

The number is entered automatically for all selected pupils.

4. Click to the right of the grid to deselect all.

5. Edit the entry for each pupil who is receiving a different number of hours. This is achieved by highlighting the required pupil, clicking in the associated **Hours at Setting** (or **Funded Hours**) cell, as applicable, then entering the required number.

6. Click the **Save** button. If there are any pupils where zero hours have been recorded, a message is displayed. Click the **Yes** button to save the data or the **No** button to return to the **Update Hours** page where the number of hours can be entered.
Updating Students with Top-Up Funding

The school needs to indicate those students, if any, on roll at census day for whom the school receives top-up funding from the Local Authority. Top-up funding is supplied by Local Authorities from their high needs budget directly.

1. To indicate which students receive top-up funding select Tools | Statutory Return Tools | Update Top-Up Funding
2. You may be asked if you wish to copy forward the pupils from Autumn. Click Yes. Any students currently recorded as having top-up funding are displayed in the Top-up Funding table.
3. Use the search criteria to locate any additional students you wish to record as having top-up funding then highlight their details.
4. Click Search.
5. Click the **Add** button. The highlighted students are displayed in the **Top-up Funding** table.

![Top-up Funding Table](image)

6. To remove a student from the list, **highlight** the required student then click the **Remove** button. The student's record is displayed in the first table, providing a chance to reselect the student, if required.

7. Click the **Update** button to save the data and arrange the list of students in **Surname** order.
Updating Students Post Looked After Arrangements

This data item will identify those students on roll on census day who were looked after immediately before adoption, being placed on a special guardianship or residence order. It is up to the adult that has parental responsibility for those students to decide if they wish schools to know this information.

1. Select **Tools | Statutory Return Tools | Update Post Looked After Arrangements** to display the **Update Students Post Looked After Arrangements** page.

   Any students currently recorded as ceased to be looked after are displayed in the **Post Looked After Arrangements** table.

2. Use the **search** criteria to locate the additional students you wish to record as ceased to be looked after then **highlight** their details.
3. Click the Add button. The highlighted students are displayed in the Post Looked After Arrangements table.

4. Ensure that the post looked after arrangements status is displayed for all the students by clicking the PLAA cell then selecting the applicable status from the drop-down list:
   - Ceased to be looked after through Adoption
   - Ceased to be looked after through a Special Guardianship Order (SGO)
   - Ceased to be looked after through a Residence Order (RO)
   - Ceased to be looked after through a Child Arrangement Order (CAO).
5. If you tick the box to say that evidence has been obtained, then you will be warned to ensure that the evidence is kept securely. Click OK.
6. To remove a student from the list, highlight the required student then click the Remove button. The student's record is displayed in the first table, providing a chance to reselect the student, if required.
7. Click the Update button to save the data and arrange the list of students in Surname order.

NOTE: Ceased to be looked after through a Residence Order (RO) has been replaced by Ceased to be looked after through a Child Arrangement Order (CAO).
You do not need to change any existing residence orders but new post looked after arrangements must be recorded as child arrangement orders.

Childcare – Spring Return only

From 2016 childcare details have been collected annually in the spring return and the information entered via Focus | School | School Details. The Childcare panel (on the Census Return Details page) displays read-only childcare provision information that has been entered previously via School Details. Additional information can be added or existing data edited by clicking Edit. This provides a direct link to the School Details page.
NOTE: From 2017, childcare details must be provided for each of the four types of childcare. The school must provide an answer to whether there is on-site provision (and any subsequent information) and whether the school signposts off-site provision for each of the four types of childcare. The minimum return from a school which does not provide on-site childcare and also does not signpost off-site provision would be: for each type of childcare a ‘NO’ for on-site and an ‘N’ for signposting.

The DfE definition of Under Fives Childcare is a service that parents can use for at least 9 hours a day if they choose to. This does not include provision which is only available during school hours or where children can only attend for a morning or afternoon session.

You must check that this panel shows the most up-to-date information.

1. Focus | School | School Details
2. Find Panel 6 Childcare, by scrolling or clicking the Panel 6 hyperlink.
   Each of the four types of childcare will be listed in the panel. The process outlined below needs to be repeated for each childcare type.

3. Open an existing record to display the Update Childcare Details dialog.

2. Select the Site as applicable from the drop-down list:
   a) On Site – select this option if childcare is being provided on the school premises.
   b) Off site, signposted – select this option if your school promotes or points parents towards a regular off-site childcare service, for example, a private or voluntary organisation.
   c) Off site, not signposted - select this option if a regular off-site childcare
service is used but your school does not promote or point parents towards the facility.

**NOTE:** If Off site, signposted or Off site, not signposted is selected then no other details are required, click Save to return to the Census Return Details page.

3. Enter the **Opening Time** that the service becomes available. (Not applicable for After School Childcare).

**NOTE:** Ensure that the time is entered in 24-hour format.

4. Enter the **Closing Time**. (Not applicable for Before School Childcare).

5. Enter the maximum of childcare **Places** that the service can provide.

6. Select the description from the drop-down list that most accurately describes the **Provider** of the service:
   a) **School**
   b) **School in Partnership** (with another provider)
   c) **Other (non-school) Provider**.

7. If the service is made available to children from **Other Schools** select the applicable option from the drop-down list.
   a) **Yes**
   b) **No**
   c) **Unknown**.

8. Enter the number of **Weeks Open** for which childcare is provided.

**NOTE:** The number of weeks for which the service operates must be between 1 and 38. Under 5 provision in holiday time is recorded under holiday childcare.

9. Click **OK** when you have completed the screen.

10. After updating all four childcare options, remember to click **Save** and then **OK** to return to the Census panel.

The example below is for a school who only offers After School childcare.
Updating Contact Time (Time in Unit)

**Time in Unit**, also referred to as **Contact Time**, is the total number of expected hours that a child spends at a Pupil Referral Unit in census week.

The Time in Unit must be recorded for all pupil/students who are on-roll on census day.

If time in unit has previously been recorded via **Tools | Statutory Return Tools | Update Time in Unit**, the values are displayed in the **Time in Unit** panel, otherwise the values default to zero.

Data can be sorted by clicking on one of the headers of the table or filtered by using the criteria above the table.

To specify the time in unit for an individual pupil/student, click the required pupil/student record to highlight it then click the associated cell in the Time in Unit column and enter the required value.

**IMPORTANT NOTE:** The number of hours entered per pupil/student must be between 0 and 99. Whole hours only can be entered.

If most of the pupil/students are expected to be in the Pupil Referral Unit for the same number of hours in census week, the following method can be used to quickly populate the column:

1. In the **Pupils View** panel, select the required year group from the **Year Group** drop down list. The selected pupil/students only are displayed in the Pupils panel.
2. Right-click the **Time in Unit** column header then select **Select All** from the drop down list.
3. Click in one of the highlighted cells of the **Time in Unit** column then enter the number of hours that is applicable to the majority of pupil/students.
4. The number is entered automatically for all selected pupil/students.
5. Click to the right of the **Time in Unit** column to deselect all.
6. Edit the entry for each pupil/student whose hours are expected to be different. This is achieved by highlighting the required pupil/student, then clicking the associated Time in Unit cell and entering the required number.
7. When all entries/updates have been made, click the **Save** button.

**Resetting Time in Unit Values**

1. To reset all time in unit values, right-click the **Time in Unit** column header, then select **Reset All** from the drop-down list. All values are reset to zero.
2. Re-enter correct values as previously described, then click the **Save** button.

**Identifying which Pupils have no Hours Specified**

1. To ensure that all pupil/students have a time in unit entered against their record, select **No Time in Unit** from the **Status** drop-down list (located in the View Pupils panel). Any pupil/students without a time in unit value are displayed.
2. Enter a time in unit value for these pupil/students, as previously described, then click the **Save** button.

**Updating Provider Status**

The term **Provider Status** is an indicator of where a PRU pupil/student is educated, i.e. Further Education College (FE College) or Other Provider.

Where applicable, a **Provider Status** should be recorded for each pupil/student who is on-roll on census day. If provider status values have previously been recorded via **Tools | Statutory Return Tools | Update Provider Status**, they are displayed automatically in the Provider Status panel.

The display can be sorted and filtered, if required.
1. To specify the provider status for an individual pupil/student, click the FE College or Other Provider cell adjacent to the applicable pupil/student's details to display a tick.

2. If all pupil/students listed are educated at the same provider, right-click the appropriate column heading (i.e. FE College or Other Provider) then select Check All from the drop-down list. All records in that column are ticked.

3. To view the pupil/students who have no provider status assigned to them, select No Provider Status from the Status drop-down list in the Pupils View panel. Any pupil/students without a provider status are displayed in the Pupils panel.

4. If applicable, a provider status can be entered for these pupil/students, in the way described previously, before clicking the Save button.

5. To reset all provider status values, right-click in the FE College or Other Provider column header, then select Remove All from the drop-down list. The column is cleared of all ticks. Re-enter correct values then click the Save button.

6. Click again to remove the tick, if required.

7. Click the Save button. The data in the Enrolment Status column is refreshed to reflect the updated provider statuses.

The values displayed in the Enrolment Status column are those collected in the return.

**IMPORTANT NOTE:** The enrolment status is recorded in the Registration panel via Focus | Pupil (or Student) | Pupil (or Student) Details. It is unusual for PRUs to change the enrolment status. Any update(s) made on the Update Provider Status page are for School Census purposes only and do not change the details recorded via the Focus menu.
Updating Information Using the Bulk Update Routine

Before beginning the School Census return, ensure that all current students are recorded in SIMS and that as far as possible, the information is up-to-date and accurate. Ensure that:

- new students have been added.
- any leavers have been recorded as such.

**NOTE:** Ensure that a student’s first language, nationality, country of birth, proficiency in English and boarder status are entered before they are recorded as a leaver.

- any duplicate or unwanted student records have been deleted.
- part-time details have been checked/updated.

Using the Bulk Update Routine

To prevent validation errors occurring, it is advisable to check the SIMS data for accuracy before the return is created and validated.

Many items can be checked using the Bulk Update routine. This functionality enables you to search for missing or invalid data and then update in bulk.

For example, it is possible to search for all students who do not have a Nationality recorded against their name. From the students found, a value can be assigned to all or several students. This prevents the need to enter/change values manually for individual students.

1. Select Routines | Student | Bulk Update to display the Bulk update Student browser.
2. In the Bulk Update panel, select the required Group Type and Group from the drop-down lists. (See table below)

   The **Group Type** indicates the type of group to list while the **Group** enables the specific group of students to be listed. For example, selecting a **Group Type** of Year Group enables a specific year to be selected from the **Group** drop-down list, such as Year 7.

   If searching for missing information, select the particular data field from the **Group Type** drop-down list, such as First Language, then select a specific **Group**, such as <NONE>.

   It is also possible to use this functionality to review the data entered for all the students in the school. This is achieved by selecting Year Group from the **Group Type** drop-down list and <ANY> from the **Group** drop-down list, then selecting the required **Data Item**.
The following table provides some examples of the searches that can be carried out to identify missing data:

<table>
<thead>
<tr>
<th>Group Type</th>
<th>Group</th>
<th>Data Item</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Language</td>
<td>&lt;NONE&gt;</td>
<td>First Language</td>
<td>Identifies students who do not have a First Language recorded. Can also be used to change existing values as required.</td>
</tr>
<tr>
<td>SEN Status</td>
<td>EHCP</td>
<td>SEN Provision Type</td>
<td>Lists students with a SEN Status of E enabling the SEN Provision to be selected.</td>
</tr>
<tr>
<td>SEN Status</td>
<td>SEN Support</td>
<td>SEN Provision Type</td>
<td>Lists students with a SEN Status of K enabling the SEN Provision to be selected.</td>
</tr>
</tbody>
</table>

3. Select the required **Data Item** from the drop-down list, e.g. **Pupil Nationality**.

4. The **Effective Date** in the **Student Population** area is the date on which the membership of the group is based and defaults to today’s date. In most circumstances, it is advisable to change this date to the **start of the academic year** because most data recorded is applicable from the start of the academic year. However, the **Effective Date** in the **Update Data Item** area is the date that the piece of data will be dated/updated. Choose appropriate date(s) for Effective Date.

Clicking on any of the headings, will sort the data. The example below shows sorting using the **Assigned** column header, so that **Unassigned** appears at the top.

You may also have some students with a **Nationality** of **Not Yet Obtained**. These will need to be **removed** before you assign a new Nationality.

5. When the required criteria have been selected, click the **Search** button to display the **Members** panel, which displays a list of students matching the chosen criteria and the choice of **Pupil Nationality** types.
Bulk Updating Data for a Selection of Students

There are two methods for selecting a number of students.

**Entering Values for a Selection of Students**

1. **Highlight** the first student you wish to select then hold down the Ctrl key and highlight the other required students.
2. Release the Ctrl key, then click one of the highlighted cells in the required data item column.

A tick indicates that the student has been assigned that value.

**Entering Values for Sequentially Listed Students**

This method can be used for assigning a value to a group of students. For example, to assign English to all unassigned students, click the **Assigned** column heading to display all unassigned students at the top of the list.

1. **Highlight** the first student in the group, hold down the Shift key then click the last student in the group (alternatively, hold down the Shift key and press the Down Arrow key).
2. Release the Shift key then click one of the highlighted cells in the required data item column.

A tick indicates that the student has been assigned that value.

**NOTE:** Please be aware that a child can have more than one Nationality and if you have previously marked a child as Not yet obtained, for example, and then change the value to be their actual nationality, any previously chosen value will not be removed. This must be deselected manually.

The following is an example of a child being given 'Not yet obtained' prior to the Autumn census return and then having been given a Pupil Nationality of Afghanistan.

![Table Example](image)

The Assigned column indicates that (2) nationalities have been assigned with 'Not yet obtained' being the first one assigned. This is clearly not appropriate.
The tick in the **Not Yet Obtained** column must be manually removed.
DRY RUNS

When the SIMS 2017 Autumn Release (SIMS 7.178) has been installed, you can carry out one or more dry runs.

The purpose of a dry run is to produce the Validation Errors Summary, which details the corrections that need to be made to your data. It is advisable to do this as early as possible, even if you know that your data has not yet been fully prepared or checked.

Whilst a significant number of errors may be generated, many of the errors that relate to students, e.g. language, SEN provision type, etc. can be fixed quickly using the processes mentioned previously in this guidance.

The Dry Run Process

1. Select Routines | Statutory Returns | School Census to display the Census Return for Spring Term browser.

2. Select an existing School Census Folder or enter a new location in which the School Census files will be stored. You may wish to make this a temporary folder for the purpose of producing a dry run. For the main return the School Census Folder should be set as \n:sims\star\ascout where n: is the drive letter of your sims directory (usually c: or s:).

**IMPORTANT NOTE:** Due to the sensitive nature of some of the data stored in SIMS, careful consideration should be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc. You should be mindful of your school’s responsibilities with respect to information security.

Consider which users have access to the chosen folder, especially if the folder is shared on a server. The DfE recommends ISO27001 as the standard for information security (http://www.itgovernance.co.uk/iso27001.aspx). If you are in any doubt, you should consult with your IT Security Officer before proceeding.
3. Click the **New** button to display the **Census Return Details** page.

**Editing Census Details – Panel 1**

The **Census Details** panel displays the following dates (most of which are read-only):

- The census date is displayed as 18/01/2018.
- Attendance data collected from 01/08/2017 to 31/12/2017.
- Exclusions data collected from 17/04/2017 to 31/08/2017.
- FSM (Free School Meal) data collected from 06/10/2017 to 18/01/2018.
- Learner Support collected from 01/08/2017 to 18/01/2018.

4. By default, the return **Description** is displayed as **School Census Spring 2018**. This description can be amended, if required.

5. The **Attendance collected from** date defaults to **01/08/2017**. This date can be edited if the start of your Autumn term is different.

**Calculating All Details**

Clicking the **Calculate All Details** button extracts the required information from SIMS and displays the results in the applicable panels of the **Census Return Details** page.

**IMPORTANT NOTE:** You must calculate all details at least once to populate the various panels for each return.

*Do not use the **Calculate All Details** button more than once if you wish to keep any changes you have made. Clicking the **Calculate All Details** button overwrites any previously collected or edited data (in every panel where details are calculated automatically) with the data currently stored in SIMS.*

Any details that are calculated automatically should be checked and edited, if required.

1. Click the **Calculate All Details** button.

A message advises that any existing data currently shown on the **Census Return Details** page will be overwritten.
2. Click the Yes button to calculate all details. At this point, depending on the number of pupil/students in the school, there may be a short delay while details are calculated. The applicable panels on the Census Return Details page are populated with data.

3. The return can be saved at any point by clicking the Save button.

Panel 2 School Information
If the School Details have not been updated by selecting Focus | School | School Details, the School Details button at the bottom of the School Information panel will access that area enabling the required information to be entered.

The basic School Information will be displayed. Most of the fields on this panel must be completed. If anything is missing or incorrect at this stage you can make any changes/additions before proceeding. You must make sure that a School e-mail Address is entered as this is a compulsory field for School Census. The e-mail address should be one to which the headteacher has regular access.

INFORMATION FOR ACADEMIES
Select Academies from the School Type and School Governance drop down lists. Academies should ensure that the Previous School Name and the Date Name Changed are entered if applicable. If the name did not change when the school converted to Academy status, enter the school's current name in the previous name field.
If the Establishment number and URN Number has changed, please also complete the Previous Estab Number and Earliest DOA, Previous URN Number and Date Number Changed.

After you have finished making changes to the school details click on Save to save the changes and click OK to return to your School Census return.

Panel 3 Childcare

The Childcare panel (on the Census Return Details page) displays read-only childcare provision information that has been entered previously via School Details. Additional information can be added or existing data edited by clicking the Edit button. This provides a direct link to the School Details page.

See page 28 for further details about requirements and how to amend details.

Panel 4 Hours for Early Years

This panel is now split into three sections. The top part of the screen will show the hours that you have input by selecting Tools | Statutory Return Tools | Update Hours for Early Years.
If you need to update this information, click on the **Edit** button then **OK** button. You will now be able to edit/update the Hours for early Years. Please see page 21 for further information. **Amend** and **Save** the amended data as necessary.

The second part of this panel shows Early Years Pupil Premium Eligibility.

Only children that could be eligible are visible in this panel. Initially all children are showing as **Not Eligible**. You will need to amend this data by clicking in the **Basis for EYPP Eligibility** column for each child that is eligible for Pupil Premium.

The bottom part of this panel shows 2 year old basis for funding. Initially the final three columns will be empty. This is a new data item. The 2 Year Old Basis for Funding grid enables schools to enter the basis of funding for each pupil with a date of birth between 01/01/2015 and 31/12/2015 inclusive.

1. Click a cell in the **Economic Criteria** column, then select **Yes** or **No** from the drop-down list to indicate if this basis for funding applies to the adjacent two year old pupil.
2. Repeat this process in the **High level SEN or Disability** and **Looked After or Adopted From Care** columns.

**NOTE:** A pupil might meet one or more of the criterion. Select **Yes** to each applicable basis for funding.

3. Repeat this process for all two year old pupils.
4. Save the amended data.

**Panel 5 Top-Up Funding**

Initially the screen will show the hours that you have input by selecting **Tools | Statutory**

**Return Tools | Update Top-Up Funding**
If you need to update this information, click on the Edit button then OK button. You will now be able to edit/update the Top-Up Funding. Please see page 25 for further information. Amend and Save the amended data as necessary.

Panel 6 Post Looked After Arrangements

Initially the screen will show the hours that you have input by selecting Tools | Statutory Return Tools | Update Post Looked After Arrangements

If you need to update this information, click on the Edit button then OK button. You will now be able to edit/update the Post Looked After Arrangements. Please see Page 26 for further information. Amend and Save the amended data as necessary.

Panel 7 School Dinner Taken Applicable to PRUs with pupils in Reception, Year 1 and Year 2

Entering School Dinners Taken Details

You need to indicate whether the pupil has taken a school provided lunch. This data item will be used to inform the allocation of funding. If your school uses SIMS Dinner Money or SIMS Attendance, the number of dinners taken on census day can be calculated using the data recorded when using these modules. If either or both of these modules are not in use, the applicable Calculate From... button(s) are not displayed but the information can be recorded manually.

Calculate From Attendance will populate the School Dinner Taken column based on whether a pupil is has been marked present on census day. If the pupil did not take a school provided dinner the tick should be removed from the School Dinner Taken column. Tick All can be used if attendance is not entered directly into SIMS on a daily basis and the ticks removed as necessary for pupils that did not take a meal.

Calculate From Dinner Money will populate the School Dinner Taken column based on whether a pupil has been marked as taking a dinner on census day in the SIMS Dinner Money.

The Reference Date defaults to 18/01/2018 but can be amended only if the situation on census day is abnormal.
Panel 8 Provider Status

Initially the screen will show the hours that you have input by selecting **Tools | Statutory Return Tools | Update Provider Status**

If you need to update this information, click on the **Edit** button then **OK** button. You will now be able to edit/update the Provider Status. Please see page 25 for further information. **Amend** and **Save** the amended data as necessary.

Panel 9 Contact Time

Initially the screen will show the hours that you have input by selecting **Tools | Statutory Return Tools | Update Time in Unit**

If you need to update this information, click on the **Edit** button then **OK** button. You will now be able to edit/update the Contact Time. Please see page 25 for further information. **Amend** and **Save** the amended data as necessary.

Panel 10 Attendance Panel

Attendance Errors

Attendance data for all statutory school aged students will automatically be entered directly into the School Census return. **You must** have made sure that attendance data is up-to-date for the period of 01/08/17 to 31/12/17 as this return collects attendance data for Terms 1 and 2.

Once the information is complete click on **Save** to save the details of the Spring 2018 School Census return so far.

If you see a message stating that you have missing marks, please deal with these via route **Focus | Attendance | Deal with Missing Marks** before continuing with the return.

If you see a message stating that your attendance codes are not DfE compliant, you must ring the Capita helpdesk on 0844 8922406 before continuing with your return.
Schools not using SIMS Attendance

If Attendance/Lesson Monitor is not in use, the following data must be entered manually for the specified collection periods, i.e. 01/08/2017 to 31/12/2017:

- Total Possible Sessions (T Poss Sessions)
- Total Sessions Missed due to Authorised Absence (T Auth Absences)
- Total Sessions Missed due to Unauthorised Absence (T Unauth Absences).

1. To filter the display of students in the Attendance panel, select Year Group, Registration Group or Enrolment Status from the Group By drop-down list.
2. Alternatively, select Group by None to display a list of all students.
3. To sort the displayed data by surname, forename, year group, registration group or enrolment status, click the appropriate column header.
4. For each student, enter the correct attendance numbers in the T Poss Sessions, T Auth Absences and T Unauth Absences columns for each of the collection periods.
5. To clear the attendance information and check for additional students, click the Check for additional students & zero totals button.

**WARNING:** If the Check for additional students & zero totals button is clicked, any attendance data entered manually is lost.

**Helpful Hint**
You can save and exit then validate your School Census return at a later stage. Alternatively, click Create & Validate at the top of the screen if you wish to continue. Instructions on Validating your return are shown on the next page.

Panel 11 Teenage Mothers

The required information about teenage mothers should be recorded in the Teenage Mothers panel.

1. If the Unit caters for teenage mothers, select the associated check box.
2. Enter the Number of teenage mothers expected to attend in Census week.
3. If the Unit provides childcare facilities, select the associated check box.
When these panels are complete and you are satisfied that all the details on the Census Return Details page are correct, click Save. The census return file can now be created and validated.

Create and Validate

Click the Create & Validate button to start the validation process, which may take some time depending on the amount of data. Any missing or invalid data is listed in the Validation Errors Summary panel, located at the bottom of the page.

Resolving Validation Errors and Checking Queries

After creating the return file and validating the data, any errors and queries found are listed in the Validation Errors Summary panel at the bottom of the Census Return Details page.

The Validation Errors Summary panel header displays the number of errors and queries found during the Create and Validate process.

Details about the errors and queries that have been found are displayed in the following columns.

<table>
<thead>
<tr>
<th>Column</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Type</td>
<td>Displays the type of validation rule:</td>
</tr>
<tr>
<td></td>
<td>Failure (F displayed in red) indicates an error, which must be corrected.</td>
</tr>
<tr>
<td></td>
<td>Query (Q displayed in black) indicates that there are unusual data conditions.</td>
</tr>
<tr>
<td></td>
<td>These should be considered and corrected, if necessary.</td>
</tr>
<tr>
<td>Sequence</td>
<td>Shows the error or query number.</td>
</tr>
<tr>
<td>Message</td>
<td>Displays the text of the error or query message.</td>
</tr>
<tr>
<td>Location</td>
<td>Lists the specific record containing the error or query.</td>
</tr>
</tbody>
</table>
Solution Provides a suggestion on how the error can be corrected or the query checked. Many solutions have a hyperlink (indicated by a #) to the appropriate area of SIMS.

To assist in the resolution of any errors and queries:
When the mouse pointer is hovered over a Message, Location or Solution cell, hover help displays the entire content of that cell.

NOTE: A hyperlink is also indicated by a hash symbol (#) preceding the Solution text.

Click the appropriate hyperlink to display the specific SIMS area where the record(s) can be checked/corrected.

The student search functionality can be used to display all errors and queries relating to a particular student. Enter all or part of a UPN, student’s surname or date of birth in the Student Search field then select the required record from the Student Search drop-down list and click the Find button.

Click a Solution hyperlink to display the area of SIMS where the associated issue can be checked/corrected. When you return to the Validation Errors Summary panel, the details of the applicable student are displayed in the Student Search field, the corrected error will not be removed from the list until you next Create and Validate.
Use the **Errors Search** to display the required error or query you want to view. This is achieved by selecting **ALL**, **ERRORS**, **QUERIES** or the required number from the drop-down list.

When **ALL** errors and queries are selected, the errors are displayed at the top of the list by default. Use the scroll bar located on the right-hand side of the panel to view all items.

Change the order of the summary by clicking the appropriate column heading. If required, change the width of the columns by dragging the dividing line between the column headings until the required size is achieved.

View a summary of validation failures (particularly useful if there are a large number of errors/queries) by clicking the **Report** button, which is located above the **Validation Errors Summary** panel. The report is displayed in a web browser, e.g. Windows® Internet Explorer®, from where it can be printed.

The details of the **Validation Errors Summary** can also be transferred to another application, if required.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

**NOTE:** All errors must be resolved and all queries must be investigated.

If at any point you wish to hide the list of errors and queries, click the **Close** button located at the top right-hand side of the **Validation Errors Summary** panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via **Routines | Student | Bulk Update**).

In addition to the **Validation Errors Summary**, an Errors and Resolutions document containing a list of all errors/queries that can be generated is being produced. Explanations and information on how to resolve the errors or whether the queries can be ignored are also included. The document can help to identify the order in which errors should be corrected. For example, if a UPN is missing, several UPN related errors might be generated. Therefore, adding missing UPNs can remove several errors.
Producing Detail Reports

Detail reports can be used to check the data stored in SIMS that has been used to create the return. The reports can be produced as soon as the return has been created and validated.

Each detail report header displays the Security Message that was defined in the Census Return browser, the Report Criteria and the Total Students that are listed in the report.

Also shown at the top of the report is the School Name, the Fileset Number, the Filename, the Report Created date, and the XML Version.

The following reports are currently available:

**On-Roll Basic Details Report**

Report Criteria: Students on-roll on census day.

This report provides basic information about the pupil/students: UPN, ULN, legal surname, legal forename, preferred surname, former surname, date of birth (DOB), gender, year taught in (YTI), date of admission (DOA), enrolment status, ethnicity, language, proficiency in English, nationality, country of birth, Youth Support Services Agreement indicator (YSSA), part-time status, boarder, time in unit, etc.

**Leavers Basic Details Report**

Report Criteria: Students not on-roll on census day who are:
Leavers with attendance 1 term ago (from the start of the 2017 Autumn term to 31/12/2017)
Leavers with exclusions 2 terms ago (17/04/2017 - 31/08/2017)
Leavers with learner support of Vulnerable Group Bursary Awarded or Discretionary Bursary Awarded from 01/08/2017 to 18/01/2018.

This report provides basic information about leavers: UPN, ULN, former UPN, legal surname, legal forename, middle names, former surname, date of birth (DOB), gender, date of admission (DOA), date of leaving (DOL), ethnicity, language, nationality, country of birth, part-time status, boarder, attendance, exclusion and Learner Support.

**Exclusions Report**

Report Criteria: On-roll pupil/students and leavers with exclusions two terms ago (17/04/2017 to 31/08/2017). Not applicable to pupil/students who have exclusions with appeal result of Reinstated or Not in the best interests of the child.

This report provides the following details about pupil/students who match the report criteria: UPN, legal surname, legal forename, date of birth (DOB), gender, date of admission (DOA), exclusion category, reason for exclusion, exclusion start date, number of session excluded from, SEN provision and on-roll status.

**Attendance Report**

Report Criteria: Pupil/students with attendance one term ago (from the start of the 2017 Autumn term to 31/12/2017). On-roll and leavers (but not boarders) who were aged four to 15 at 31/08/2017.

This report displays the following information about pupil/students and their attendance: UPN, legal surname, legal forename, date-of-birth (DOB), gender, year taught in (YTI), termly
sessions possible, termly absence sessions, on-roll status, termly attendance codes (divided into authorised and unauthorised sessions) and attendance not required (Y). Column totals are displayed at the bottom of the columns.

A list of codes and their descriptions are displayed at the end of the report.

**Absentees Report**

Report Criteria: Pupil/students who have missed 14 sessions and whose absence might need to be tracked. On-roll pupil/students and leavers (not boarders) with attendance one term ago (from the start of the 2017 Autumn term to 31/12/2017) who were aged four to 15 at 31/08/2017.

The number of sessions possible and the number of authorised plus unauthorised absences applicable to each of the pupil/students are shown on this report.

The report also provides the following basic details about the pupil/students who match the report criteria: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), on-roll status and enrolment status.

**SEN Report**

Report Criteria: On-roll pupil/student with SEN Provision/Status = S (Statement), E (Education), Health and Care Plan, K (SEN Support). SEN Need Types ranked 1 and 2 for pupil/students with EHCP, Statement or SEN Support.

**NOTE:** A and P are invalid for this return.

This report provides a list of pupil/students who have special educational needs. Displayed are their UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), SEN Provision, SEN type ranking, SEN type, member of SEN unit, member of resourced provision indicator and on-roll status.

**Address Details Report**

Report Criteria: Students on-roll on census day.

This report provides a list of pupil/students, their UPN, former UPN (if applicable), legal surname, legal forename, middle name(s), post code, Unique Property Reference Number (UPRN), address details and the administrative area/county.

Definition: Unique Property Reference Number (UPRN) – a unique identifier (reference number) that links together related address records across different software programs. This enables organizations to collate and share information based on a common reference number.

**Learner Support Report**

Report Criteria: On-roll pupil/students and leavers aged 16 plus at 31/08/2017 who have been awarded Vulnerable Group and/or Discretionary Bursary funding from 01/08/2017 to 18/01/2018.

This report provides information about the applicable pupil/students: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), Learner Support and on-roll status.
Free School Meal Eligibility Report

Report Criteria: On-roll pupil/students on census day who were eligible for free school meals on or after 06/10/2017 and up to and including census day.

This report provides information on free school meal eligibility for pupil/students who match the report criteria: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), on-roll status and free school meal eligibility start date, end date and the UK country in which the eligibility applies.

NOTES: This report includes any free school meals recorded outside England, e.g. Wales. Only Free School Meals records where the Country recorded is England or <blank> attract the Pupil Premium.
**Top-up Funding Report**

**Report Criteria:** On-roll pupil/students who have been awarded Top-up Funding as at census day.

The report provides the following information: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI) and SEN provision.

**Post Looked After Arrangements Report**

**Report Criteria:** On-roll pupil/students who have post looked after arrangements as at census day.

The report provides the following information about pupil/students who have post looked after arrangements: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI) and post looked after arrangements, e.g. ceased to be looked after through a special guardianship order (SGO).

**Early Years Report**

**Report Criteria:** Pupil/students with early years data who are on-roll on census day:

- All two year old pupils who were born between 01/01/2015 and 31/12/2015 (Hours at Setting and Funded Hours only)
- All three year old pupils who were born between 01/09/2013 and 31/12/2014.
- All four year old pupils who were born between 01/09/2012 and 31/08/2013 (in years E1, E2, N1 and N2 only).

The report displays the following information: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), hours at setting, funded hours, 30 hour code, extended funded hours and disability access fund.

**EYPPE Report**

**Report Criteria:** Pupil/students on-roll on census day:

- All 3 year olds born between 01/09/2013 and 31/12/2014 (inclusive)
- 4 year olds (for other than Nursery - in E1, E2, N1 and N2 only) born between 01/09/2012 and 31/08/2013 (inclusive)
- 4 year olds (for Nursery – all pupils)

The report provides a list of pupil/students, their UPN, legal surname, legal forename, preferred surname, former surname, date of birth (DOB), gender, year taught in (YTI), post looked after arrangements, hours at setting, funded hours and basis for EYPP eligibility.

**2 Year Old Basis for Funding Report**

**Report Criteria:** Pupil/students on-roll on census day having two year old basis for funding data. All two year olds who were born between 01/01/2015 and 31/12/2015.

This report displays the following information: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), hours at setting, funded hours, economic criteria, high level SEN or disability and looked after or adopted from care status.
General Report
Where applicable, the General report provides information about:

- childcare provisions during the 2017/2018 academic year. The report displays the following information: childcare type, on site, signposted, opening time, closing time, number of childcare places, provider, other schools and weeks open.

Teenage Mothers Report
Report Criteria: The number of teenage mothers expected to attend the Pupil Referral Unit in the week that the census takes place.

This report displays the following information: Whether the unit caters for teenage mothers, The number of teenage mothers expected to attend the unit in census week and whether the unit provides childcare facilities.

The report data is taken from the information entered in the Teenage Mothers panel on the Census Return Details page.

*It is strongly recommended that you print each report and check the data for accuracy.*

Generating Detail Reports

Selecting a Single Detail Report
Select the required report from the Detail Report drop-down list, located at the top of the Census Return Details page. The selected report is generated automatically and displayed in your web browser.

The following example displays the reports available for PRUs.
Selecting Multiple Detail Reports

1. Select Multiple Reports… from the bottom of the Detail Report drop-down list to display the Detail Reports dialog. By default, all detail reports are selected.
2. If any reports are not required, deselect the associated check boxes.
3. Click the Report button to generate the selected reports, which are displayed in your web browser.

The report(s) are saved automatically in the folder specified in the Census Return for Spring Term browser.

Creating the Final Return

If you have not created a dry run for this census return, please follow the steps on page 38.
1. If the census file is not already open, click on Routines | Statutory Returns | School Census

You will see the following message

![Census Loading... screen]

2. Open the census return you have used previously for dry run(s) or click on New to create a new School Census return.

You can create as many trial runs as you like. It is possible to delete unwanted returns before authorisation. You will only Authorise and submit one return once all the data is correct and all the validation errors have been cleared.

At any point in the return you can click on the Save button to save your work to date.

Panel 1 Census Details

The defaults for your phase of school will be displayed. The Census Date should be 18/01/2018. You can add a different Description if required.
Calculating the School Census Return

Only applicable if you are starting a new Census return

1. Click on the Calculate All Details button at the top of panel 2 Census Details.

You will then see the following message:

Please check the warning carefully and choose Yes or No as appropriate.

2. When you are ready to calculate, click the Yes button to calculate all details. At this point, depending on the number of pupil/students in the school, there may be a short delay while details are calculated.

The applicable panels on the Census Return Details page are populated with data.

3. The return can be saved at any point by clicking the Save button.

Creating and Validating the Return

You must Create & Validate the return again on or after 18th January 2018 even though most of the work can be prepared in advance.

If you have exited from the return you will need to choose the following route to create & validate the return:

Routines | Statutory Returns | School Census and click on Search. Double click on the relevant return to be created & validated to bring the detail panels to screen.

Click on Create & Validate button. This may take some time so please be patient.

A message will appear stating that the Validation is taking place.
Viewing Errors on the Return

When the validation process is complete, the Validation Errors Summary panel is displayed at the bottom of the Census Return Details page. **These should not exist if you have already completed the Dry Run process.**

If any errors are generated you will be presented with a screen similar to the one shown below.

Errors with a **Type of F** must be investigated and resolved. Errors with a **Type of Q** are queries but these must be checked to ensure that data has not been excluded by mistake, or that the entry you have made is correct as it may not be what the software expected. **BIPI will be verifying with schools, all queries as part of the Local Authority validation process.**

![Validation Errors Summary Panel](image)

**NOTE:** *All errors must be resolved and all queries must be investigated*

You are required to email BIPI at: **education@northamptonshire.gov.uk** with an explanation of all outstanding queries.

Please add your school name and DfE number in the subject line.
Detailed Reports

These should have been checked as part of the Dry Run process. Please refer to page 49 for further help.

Producing the Summary report

Once the errors have been resolved and the return has been validated for the final time, it is necessary to produce a paper copy of the Summary report for the Head Teacher to check.

All the details must be checked thoroughly and then the paper copy signed by the Head Teacher.

The figures shown here summarise your census return, and will have an impact on the funding allocated to your school if it is incorrect, so it is imperative that it is checked and all figures are accurate.

It is strongly recommended that this copy be kept in school for audit purposes.

1. Double click on the final, successfully validated report. Click on the Summary button to create the summary. This can then be printed.

The Head Teacher MUST check and sign the summary report before you move on to the next stage of authorisation.

Authorising the Return

Once all the errors have been resolved and the summary has been checked and any anomalies cleared, it is necessary to authorise the return before it can be sent to BIPI/DfE.

1. Ensure that the return is open.
2. Click on Authorise to authorise the return.

Once a return has been authorised it is not possible to edit any of the details on it. It is possible to reprint the summary sheet. (If the return needs amending a new one can be created and copied from the old one – see page 61).
3. Click on **Yes**.

4. Confirm (using the tick box) that the Head Teacher is satisfied that the Summary and detailed reports have been checked.

5. Click on the **Continue** button.

After a short while the summary and an Authorisation Report will appear on screen. You may wish to print these off for your records or close the reports.

6. **Close** the screen.

7. Click on the **OK** button

If the return needs amending after Authorisation it will have to be recreated from a copy of the original one – see Page 61.
Deleting a School Census Return

On occasions, a return may need to be deleted (e.g. you have created one or more dry runs in preparation for the main return.) A return can be deleted at any time prior to authorisation. An authorised school census return file cannot be deleted.

1. Select Routines | Statutory Returns| School Census to display the Census Return browser.
2. Select the census return file that you want to delete and click the Delete button.
3. Confirm that you want to delete the selected return.
4. The selected return will be deleted and removed from the Census Return browser.

Sending / Receiving files to the LA via AnyComms (AVCO)

NOTE FOR ACADEMIES

Academies should upload their Census file directly onto the Secure Access website but it is requested that AVCO is then run so that the Census files can also be sent to the LA.

Using AnyComms

The same process is used to either send or receive files via AVCO Secure File Transfer. The procedure looks for files in the relevant inboxes and outboxes and sends/receives as necessary.

1. To send the file containing the Census return to the LA click on the Start button and select All programs, AnyComms Client and select the route as shown below:

2. Click Pupil
3. Click **Start Call**.

At this point you can follow the progress of the connection by watching for several visible indicators shown in the port status and the call status.

![Port Status and Call Status](image)

The progress of the transfer will be displayed.

**The School Census file and the Summary file will automatically be sent to the Local Authority.**

**The Spring School Census 2018 return must be completed and returned to the LA by Friday 19th January 2018.**
Copying and Editing Your Return

If, after authorising the School Census return, you need to amend it for any reason it is possible to create a new one from a copy of the authorised one. To do this choose route Routines | Statutory Returns | School Census.

The screens below are example screens only.

Click on the Search button.

Highlight the return and click on the Copy button.

Click on Yes to make a copy of the highlighted return.

Double click on the copy of the return to open it. You can now edit or make amendments as necessary.

You MUST Create & Validate, Produce a Summary Report and then Authorise the new return.

You will now need to run AnyComms as normal (see page 59) to send the re-created return and the summary file to the Local Authority or upload the new file to the Secure Website.
Further details regarding Proficiency in English

All schools will be expected to collect information on Proficiency in English for all pupils aged 4 and above (at 31st of August 2017) where their language has been recorded as anything other than ‘English’ or ‘Believed to be English’. EAL pupils will require a proficiency assessment based on a five point scale of reading, writing and spoken language and ‘a best fit’ judgement provided for each pupil.

The DfE’s guidance states:

5.3.3 - Proficiency in English [ALL schools] Following an initial collection during the Autumn 2017 school census, the collection of proficiency in English has moved to an annual collection in the spring census.

Proficiency in English is required for all pupils’ recorded on roll in the census where BOTH of the following conditions apply:

• Language has been recorded as anything other than ‘English’ or ‘Believed to be English’ in that census (i.e. <Language> is NOT equal to ‘ENG’ or ‘ENB’) AND

• The actual national curriculum year group recorded is reception or above (or the pupil is aged 4 and above as at 31 August 2017 where national curriculum does not apply)

Whilst the census will validate to ensure that this data is returned for all pupils with English as an additional language (EAL) in reception and above, it is possible that the data item may be present within your MIS for all pupils as feedback has suggested that some schools and local authorities may find this functionality useful locally for all pupils. However, there is no requirement from the Department for schools to assess the English language proficiency for any children outside the specified cohorts.

The data on the English proficiency of EAL pupils will be used to inform policy on this high needs group with the basic rationale being that current data on EAL pupils does not distinguish between pupils who lack a basic command of the English language versus those who are bilingual and have mastered English sufficiently to access the curriculum. English proficiency statistics would therefore provide for the first time important national statistics on the characteristics of this group, along with their attainment and destinations and allow the Department to measure whether the individual pupils, or the schools they attend, face additional educational challenges.

Where ‘Proficiency in English’ is required, it is expected that schools will assess the position of their EAL pupils against a five point scale of reading, writing and spoken language proficiency outlined below and make a ‘best fit’ judgement as to the proficiency stage that a pupil corresponds most closely to:

• **New to English**: May use first language for learning and other purposes. May remain completely silent in the classroom. May be copying/repeating some words or phrases. May understand some everyday expressions in English but may have minimal or no literacy in English. Needs a considerable amount of EAL support.

• **Early acquisition**: May follow day to day social communication in English and participate in learning activities with support. Beginning to use spoken English for social purposes. May understand simple instructions and can follow narrative/accounts with visual support. May have developed some skills in reading and writing. May have become familiar with some subject specific vocabulary. Still needs a significant amount of EAL support to access the curriculum.
• **Developing competence**: May participate in learning activities with increasing independence. Able to express self orally in English, but structural inaccuracies are still apparent. Literacy will require ongoing support, particularly for understanding text and writing. May be able to follow abstract concepts and more complex written English. Requires ongoing EAL support to access the curriculum fully.

• **Competent**: Oral English will be developing well, enabling successful engagement in activities across the curriculum. Can read and understand a wide variety of texts. Written English may lack complexity and contain occasional evidence of errors in structure. Needs some support to access subtle nuances of meaning, to refine English usage, and to develop abstract vocabulary. Needs some/occasional EAL support to access complex curriculum material and tasks.

• **Fluent**: Can operate across the curriculum to a level of competence equivalent to that of a pupil who uses English as his/her first language. Operates without EAL support across the curriculum.

Alongside the scale outlined above, Not Yet Assessed is available for use when the school has not yet had time to assess the proficiency. It is expected that all relevant pupils should have been assessed by the time of the 2018 spring census and therefore the use of the ‘Not yet assessed’ code should be limited to pupils who have joined the school close to census day or are not currently in regular attendance from January 2018 onwards.

Once an EAL pupil has been assessed as fully proficient in English (i.e. code ‘E’ – Fluent) it will not be necessary for the school to continue to re-assess the proficiency of that child on an ongoing basis. However, for all proficiency levels below fluent it will be expected that schools should continue to monitor proficiency on an ongoing basis to ensure adequate levels of EAL support are provided to support the child’s education.

As the proficiency in English assessment is concerned with a child’s ability to engage with classroom learning / access to the curriculum, we would expect all settings where the child is currently receiving education to make an assessment of the child’s proficiency. Hence, from a data collection perspective, we would expect the proficiency data to be returned for all EAL pupils on the census irrespective of enrolment status. In cases where a child is on the school roll but not currently in attendance (e.g. a dual registered pupil who is attending a special school or PRU full time for a term or year) then we would expect the school where the pupil is not currently attending to record the proficiency as ‘Not yet assessed’ as the school will not be in a position to make an assessment until the child is in regular attendance.

There is no single statutory EAL assessment tool so schools are free to decide which scale they will use, however, an assessment system that provides a detailed assessment of a pupil’s learning needs which can be matched to teaching and learning strategies to support access to learning in the classroom is preferable. For the census, the DFE have chosen to measure EAL proficiency using the welsh EAL system, as defined earlier in this document. Schools may choose to use record two scales, one using the proficiency scale to inform the DFE and the other (e.g.. NASSEA, a language in common) to inform planning and monitor progress. As with other forms of national assessment, Ofsted has no preference as to how schools should assess pupils who speak English is an additional language. Please also note that the outcomes will not be moderated so it will be for a school to determine its own assessment arrangements and outcomes. EAL assessment training is available from the Learning Improvement team, please do get in touch.
Further details regarding Country of birth

Country of birth is collected for all pupils and records the country in which the pupil was born as stated by the parent / guardian and / or child (in the case of a child without a parent/guardian). The country of birth would be expected to appear on – or be derived from – the child’s birth certificate or passport. However, there is no requirement for the school to see a copy of the birth certificate or passport.

Where a child is born in unusual circumstances - i.e. outside of national boundaries (e.g. in international water) - the pupil may be classified as “stateless”.

Schools may also use the following codes:

• refused – where the parent or guardian has refused to provide the information requested
• not yet obtained - where the data has not been obtained by census day
• not known - this is only to be used where a guardian or adoptive parent has taken care of the child and this information is not able to be accessed Where a child transfers school, this data will also be transferred via the CTF.

It is expected that schools will collect this information for all children from the start of the academic year and this will be returned for all pupils, including those pupils no longer on roll, via the termly census.

Further details regarding Pupil nationality

Pupil nationality is collected for all pupils and relates to the nationality of the pupil as stated by the parent / guardian and / or child (in the case of a child without a parent / guardian).

Pupil nationality would be expected to appear on – or be derived from – the passport or European economic area (EEA) identity card. However, there is no requirement for the school to see a copy of the passport or identity card. For pupils with ‘Multiple Nationality’ (also known as ‘Dual Nationality’) more than one nationality may be recorded. Where the child was born in unusual circumstances i.e. outside of national boundaries (e.g. in international water), the pupil may be classified under the nationality of the parent or as “stateless”.

Schools may also use the following codes:

• refused – where the parent or guardian has refused to provide the information requested
• not yet obtained - where the data has not been obtained by census day
• not known - this code is only to be used where a guardian or adoptive parent has taken care of the child and this information is not able to be accessed

Where a child transfers school, this data will also be transferred via CTF. It is expected that schools will collect this information for all children from the start of the academic year and this will be returned for all pupils, including those pupils no longer on roll, via the termly census.
Checking Free School Meals Eligibility

The collection of free school meal eligibility at any point since the last census day (including those eligible on census day) is collected for the return.

Only students who have been approved by the LA to receive a free school meal should be recorded in SIMS as being eligible. It is advisable to check that all eligible students are recorded.

The following free school meal eligibility related data is collected for the return:

- **Start Date**
- **End Date** (if known)
- **Country** (UK).
- **Meal Patterns** are not required for the return but can be recorded for information purposes only. Select **Focus | Student | Student Details** to display the **Find Student** browser.

If you need to make changes to Free school meal data
1. Search for then **double-click** the required student to display the **Student Details** page.
2. Click the **Dietary** hyperlink to display the **Dietary** panel.

3. Ensure the minimum of a **Start Date** is displayed in the **Eligible for Free Meals** panel. If a new record is required, click the adjacent **New** button to display the **Add Student Free Meal Details** dialog.
4. Enter the **Start Date** (and **End Date** if applicable) for the free meal period, as supplied by your Local Authority.

5. Ensure that the **Country** in which the eligibility applies is correct. Select from the drop-down list, if required.

6. Notes can be entered, if required.

7. Click the **OK** button to return to the **Dietary** panel, where the new information is displayed.

8. Click the **Save** button to save any changes.

Ensure that this information is checked/amended on a regular basis.

**Checking/Amending Special Educational Needs and Disabilities Information**

The following Special Educational Needs and Disability (SEND) items are collected in the return:

- **SEN Status** (SEN Provision)
  - **N** – **No Special Educational Need** - No special educational need has been identified.
  - **S** – **Statement** – the LA has reviewed the student and a statement has been issued *(available for use until April 2018).*
  - **E** – **Education, Health and Care Plan (EHCP)** – the LA has reviewed the student and a plan has been issued.
  - **K** – **SEN Support** – actions have been put in place or will be put in place to support the student with their need, once a SEN need or potential SEN need has been identified.

- **SEN Need Type**
- **SEN Type Ranking**

1. Select **Focus | Student | Special Educational Needs** to display the **Find SEN Student** browser.

2. Select the required **SEN Status** from the drop-down list. Additional search criteria can be selected, if required, e.g. **Year Group**.

3. Click the **Search** button to display a list of students who match the criteria.

4. Double-click the name of the required student to display the **Student SEN details** page.

5. Check the details displayed in the **Basic SEN Details** panel, ensuring that the **Status** is correct. If necessary, select the correct **Status** from the drop-down list.
NOTE: At least one Special Educational Need, e.g. Visual Impairment, must be recorded for all students with a SEN Status of S - Statement, E – Education, Health and Care Plan (EHCP) and K – SEN Support.

6. Ensure that the Needs information is up-to-date and correct.

To add a Need Type, click the New button (adjacent the Current Needs information) to display the Add/Edit SEN Need dialog.

A temporary Ranking is calculated automatically.

By default, today's date is displayed as the Start Date but this can be edited, if required.

Select the Need Type from the drop-down list then enter a Description, if applicable.

Click the OK button to return to the Basic SEN Details panel.

To rank the SEN Needs in the required order, highlight a record then click the Move Up or Move Down button, as required.

To edit the SEN Need or Description, highlight the record then click the Open button. Edit the details as required, then click the OK button to return to the Basic SEN Details panel.

7. Check the information in the Provisions panel. Ensure that any Resourced Provision records are recorded correctly. To edit an existing record, highlight it then click the Open button. Alternatively, click the New button to create a new record.

8. Update the other information on the Student SEN details page, if required, then click the Save button.

The DfE website (https://www.gov.uk/topic/schools-colleges-childrens-services/special-educational-needs-disabilities), provides more information about Special Educational Needs and Disabilities, if required.
Checking Exclusions Information

Exclusions information is required for students who were subject to any exclusion with a start date during the period 17/04/2017 (Easter Monday) – 31/08/2017 inclusive. Exclusions should not be counted if the Head Teacher withdrew them, or if the student was re-instated by the Discipline Committee or an independent Appeal Panel.

**NOTE:** To ensure that overturned exclusions are not included in the Census, it is important that the Discipline Committee and Exclusion Appeal results are recorded in the Appeal Details panel (via Focus | Student | Exclusions).

The following exclusion related data items are collected for the return:

- Exclusion **Type** (category, e.g. fixed period, lunchtime or permanent).
- Exclusion **Reason** (select one code to provide the main reason).
- Exclusion **Start Date**.
- Actual number of sessions (Length) - required for fixed period and lunchtime exclusions.
- **SEN Provision**.

**NOTE:** The **Start Date**, **End Date** (if known) and **LA Details** must be entered for any type of exclusion recorded for any students in care.

**IMPORTANT NOTE about Permanent Exclusions:** Any permanently excluded students should be marked as leavers as soon as the exclusion has been confirmed by the LA. Before making them a leaver, ensure that you have recorded the following information:

- SEN Status (if applicable – note that **Never Assigned** is not an acceptable value for excluded students).
- Ethnicity.
- Ethnic Source.
- Part-time indicator (if applicable).
- Date of Admission.

**Run the Exclusions Report**

A report exists, where you can enter a date range and produce a list of those students that have exclusions within those dates.

1. Click on **Report | Run Report | Focus Student | EXC – Exclusions with dates**
2. You will be asked for a date range. Use the dates 17/04/2017 – 31/08/2017.
3. Then click **OK**.

A Word document will open showing all the students excluded within that time period.
Recording an Exclusion

Any missing exclusions must be added for the time period being picked up by this census – 17/04/2017 – 31/08/2017.

1. Select **Focus | Student | Exclusions** to display the **Find Exclusions Student** browser.

2. Search for then **double-click** the required student to display the **Exclusion Details** page.

3. Click the **New** button adjacent to the **Exclusions** panel to display the **Add Exclusion** dialog.

4. Select the exclusion **Type** and the **Reason** for the exclusion from the respective drop-down lists.

5. Enter the exclusion **Start Date** and **End Date**. Alternatively, click the appropriate **Calendar** button then select the required date.

6. Select a **Start Time** and **End Time** from the drop-down list, i.e. **AM** or **PM**.

7. Click the **Calculate** button to populate the **Length School Days** field automatically.
8. Click the OK button to save the exclusion and return to the Exclusion Details page, where a summary of the new exclusion is displayed.

The current Academic Year and the total number of exclusion days in that year are displayed at the bottom of the page.

9. Click the Save button to save the exclusion.

Recording Leavers and Re-Admissions

Ensure that all your leavers are taken off-roll and any returning students are re-admitted.

The accuracy of student numbers can be checked by running the Population Analysis (Dated) report (Reports | Run Report – Focus – Student). This is a predefined report that gives a breakdown of the number of students (including figures by gender) for each registration group in each year, together with a grand total.

Recording a Leaver

The Date of Leaving is collected for all schools.

1. Select Routines | Student | Leavers to display the Find Student(s) browser.
2. Ensure that the **Status** of **On Roll** is selected.

3. Click the **Search** button to display a list of all on-roll students.

4. **Highlight** the student(s) you wish to record as leavers then click the **Select** button. The selected student(s) are displayed in the **Students** panel.

5. In the **Leaving Information** panel, enter the **Date of Leaving** or click the **Calendar** button and select the required date.

   The date of leaving should be the date that the student is actually leaving the school.

6. Select the **Reason for Leaving** from the drop-down list

7. For students in the sixth form enter a **Learning Aim Withdrawal Reason**

8. Optionally, enter the **Destination after Leaving** and **Destination Expected Start Date**, if known, then either:
   - highlight the students to whom this information applies (using the Ctrl or Shift keys) and click the **Assign to Selected** button; or
   - if the information applies to all the students in the list, click the **Assign to All** button.

9. To remove a student from the list, highlight their name then click the **Remove** button.
10. To clear the contents of the Date of Leaving, Reason for leaving and Destination after Leaving fields, highlight the required student(s) then click the Clear button. Re-enter the information as required.

11. Click the Save button.

Re-Admitting a Student

Any student who leaves the school and subsequently decides to return must be re-admitted.

NOTE: Do not remove the leaving date, as the student’s period of absence from the school will not be recorded. However, if a student is intending to leave but subsequently changes their mind and decides not to leave, the date of leaving can be removed, as continuous attendance has been maintained.

1. Select Focus | Student | Student Details to display the Find Student browser.

2. Click the New button to display the Add Student page. It is necessary to enter limited information here as you know that the person already exists.

3. Click the Continue button to display a list of Matched People, based on the criteria entered on the Add Student page.

4. Highlight the required student then click the Open button. The following warning message is displayed:

The selected student is a leaver. Do you want to re-admit the student?

5. Click the Yes button if you are certain that this is the student who should be re-admitted. Their details are displayed on the Student Details page.

6. Complete the mandatory fields (Date of birth, Gender, Year Group, Enrolment Status, Year Taught In and Admission Date) and check any other details that may have changed since they were last on-roll, such as their address.

7. Check that the original UPN is displayed.

8. Click the Save button to re-admit the student.

NOTE: If the student’s registration status has changed from when they were previously on-roll, their enrolment status should be changed via Routines | Student | Change Enrolment Status.

Deleting Unwanted Student Records

If there are students who have been entered in error (such as duplicates), ensure that they are deleted so that they are not included in the return. This is achieved via Routines | Student | Delete Student. After selecting the required student, you have the opportunity to review and print their information before deleting their record permanently. You should contact LGSS – Business Systems Team on 01604 366300 if you have to permanently delete a student.

IMPORTANT NOTE: The deletion is irreversible; therefore a student should only be deleted if they have been entered in error.
Checking National Curriculum Year Groups

The National Curriculum Year Group (Year Taught In) is the year group in which the student is taught for the majority of the time, regardless of their chronological age. In most cases, this will be the same as the year group. However, some children are taught in the year above or below the expected year (based on their age), perhaps because they are academically advanced or behind. It is very important that the correct Year Taught In has been recorded in SIMS.

The Age at Date for this return is 31/08/2017

The following table shows the Curriculum Year that students in England are expected to be taught in according to their date of birth (during the academic year 2017/2018).

<table>
<thead>
<tr>
<th>Curriculum Year the Student would Normally be Taught in</th>
<th>Date of Birth Range</th>
<th>Age Range</th>
</tr>
</thead>
<tbody>

</table>

The suggested method for checking a student’s curriculum year and date of birth in SIMS is:

- via individual student records (Focus | Student | Student Details).
Checking the Student’s Year Taught In Record

1. Select Focus | Student | Student Details to display the Find Student browser.
2. Search for then double-click the name of the required student to display the Student Details page.
3. Click the Registration hyperlink to display the Registration panel.

4. Ensure that the Year Taught In field displays the actual National Curriculum year in which the student is taught the majority of the time. If necessary, select the correct year from the drop-down list.

NOTE: Any change made in the Registration panel is effective from today’s date. If the Year Taught In change was applicable from an earlier date, click the History button and apply the change from the actual date the change is required. If in any doubt, please contact the Capita helpdesk on 0844 8922406.

(Calls to 0844/0845/0870 numbers will cost three pence per minute, plus your phone company’s access charge.)

It is important to thoroughly check any queries that might be listed in the Census dry runs. Any student considered to be in the wrong year for their age will appear as a query.

Checking Enrolment Status and Admission Date

1. Select Focus | Student | Student Details to display the Find Student browser.
2. Search for then double-click the name of the required student to display the Student Details page.
3. Click the Registration hyperlink to display the Registration panel.
4. Check the student’s Enrolment Status. Select the correct enrolment status from the drop-down list, if required.
5. Ensure that the Admission Date is correct. Edit the date or click the Calendar button and select a different date, if required.
6. Click the Save button.

Checking Unique Pupil Numbers

Ensure that all students have a UPN recorded and that all UPNs are in the correct format. A temporary UPN is acceptable in some circumstances.

Using the Quick Search facility
1. Type ~U in the Quick Search field at the top of the SIMS Home Page, and then press the Enter key or click the Quick Search icon.

A list of people recorded in SIMS who match the search criteria of missing UPN are displayed.

2. Double click on the radio button next to a student’s name. The record will open.
3. Click the Registration hyperlink to display the Registration panel.

UPNs should be entered in the UPN field. Ensure that the format is valid (the field will turn red if invalid).

- Permanent UPNs are issued to a new student only when it is believed that they have never previously been allocated a UPN or to replace a temporary UPN.
- Temporary UPNs are issued to a student when the permanent UPN is not known to the school, e.g. awaiting transfer file/applicant’s information. A temporary UPN can be recognised by the letter after the UPN number, e.g. H82020010701A.

4. If necessary, issue a new UPN by clicking the Generate UPN button adjacent to the UPN field to display the Issue UPN dialog.
5. Select either the **Issue Permanent UPN** or **Issue Temporary UPN** radio button.
6. Click the **OK** button to return to the **Registration** panel.
7. Click the **Save** button to save any changes. The UPN is generated automatically when the record is saved.

**Checking Unique Learner Numbers**

A Unique Learner Number (ULN) is a 10-digit identifier that is retained and stays with the student’s learning record throughout their lives. This applies to all students **over the age of 14**.

Learning Records Service (previously known as the Managing Information Across Partners Programme) issues and maintains a ULN record for applicable students. ULNs can be obtained in one or more of the following ways:

- The DfE ULN service to upload a CTF file via a web page on the S2S website (http://www.education.gov.uk/researchandstatistics/datatdatam/s2s/a0064650/school-to-school-s2s).
- The **Learner Registration Service** Web Portal to obtain individual ULNs (https://www.gov.uk/government/collections/learning-records-service).
- The **Key to Success** website (https://www.keytosuccess.education.gov.uk/).

A ULN must be entered for every child over the age of 14.

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.
2. Search for then **double-click** the name of the required student to display the **Student Details** page.
3. Click the **Registration** hyperlink to display the **Registration** panel.
4. Check the content of the Unique Learner Number field. Enter the 10-digit identifier, if not currently displayed.
5. Click the Save button to save any changes, if applicable.

**Checking Additional Information**

Ensure that the following additional information is recorded in SIMS:

- **Youth Support Services Agreement** (YSSA) status (students aged 12 or above only). This applies to students between age 12 and 25 with special educational needs and students between age 12 and 20 with no special educational needs.
- **Learner Support Code**, e.g. Post 16 Bursary of Vulnerable Group Bursary Awarded, Discretionary Bursary Awarded, etc. for 16 to 19 year olds
- **Service Children in Education** information.

The Bulk Update routine can be used to assign and edit these values for a specific selection of students at the same time, if required (please see Upgrading Information Using the Bulk Update Routine on page 34).

1. Select Focus | Student | Student Details to display the Find Student browser.
2. Search for then double-click the required student to display the Student Details page.
3. Click the Additional Information hyperlink to display the Additional Information panel.
4. Ensure that the **Pupil Premium Indicator** for year 2017/2018 check box is selected, if applicable. To enter a note related to the applicable year, click the **Search** button adjacent to the **Notes** field.

   - Although Pupil Premium information is not collected for the return, it is important for schools that are in receipt of this funding to be able to give a full account of its use. The national school performance tables now includes information about the progress of students in receipt of Pupil Premium and information is required to be sent to parents about how it has been used and what impact it has had on pupil progress.

5. Select the applicable **Youth Support Services Agreement (YSSA) status** from the drop-down list.

6. If the student is the child of a parent(s) in the armed forces, ensure that the correct value is selected from the **Service Children in Education** drop-down list.

7. Select how the school was notified about the **Service Children in Education** information by selecting from the **Source of Service Children in Education** drop-down list.

8. Check that the **Learner Support** details are correct.

**Adding a new Learner Support record:**
   a. Click the **New** button to display the **Student Learner Support Code Details** dialog.
   b. Select the applicable **Learner Support Code** from the drop-down list.
   c. Enter an **Award Date** or click the **Calendar** button then select the required date. **Notes** can be entered, if required.

**Updating an existing Learner Support record:**
   a. Highlight the required record then click the **Open** button to display the **Student Learner Support Code Details** dialog.
   b. Amend the **Learner Support** details, as required.

9. If you have made any changes, click the **Save** button
Checking Attendance Information

Termly attendance data should be provided for students aged 4 to 15 inclusive on 31/08/2017 who were on-roll for at least one session during the period from the start of the autumn term 2017 to the end of December (01/08/2017 to 31/12/17). Please note if the start of the autumn term in your school was not 01/08/2017, then this date should be amended in Panel 1 on the census screen.

The attendance data collected in this school census return includes:

- Attendance Codes (i.e. the reasons for absence)
- Number of Sessions Missed
- Possible Sessions

Attendance data is captured automatically for the return, provided that there are no missing marks.

**IMPORTANT NOTE:** Ensure that all missing marks and unexplained absences for the previous term have been dealt with before commencing the School Census Return.

Dealing with Missing Marks

1. Click on Focus | Lesson Monitor (or Attendance) | Deal with Missing Marks
2. Amend the date range to reflect the attendance period collected for the census. I.e. **Start of the Autumn term 2017 – 31/12/2017**
3. Change the Group Type to Whole School
4. Change the View to Sessions
5. Click Search
6. Click on Open for a list of children with missing marks.

7. Enter the appropriate codes within the mark column and Save.
